

As a resident of the Hampton Roads area the one thing that makes my drive time more bearable is the ability to listen to a FM radio station, K-LOVE, which broadcasts uplifting positive music. I also listen to it at home regularly. What a blessing it was to locate it on the FM dial about a year and a half ago. Even though it is broadcast nationally there is a segment for local news and announcements which serves the public interest in this geographical area. There really is no other radio station with the format and music selection that K-LOVE provides for me and I would be extremely disappointed if it were to be replaced with a LPFM broadcaster.
